

COMMERCIAL.

Money. There have been sales of Orange & Alexandria Railroad 8 1/2 cent bonds at 90 and interest, and Exchange Bank stock at 105. With these exceptions, the transactions have been very limited, and in quotations there is no change. Money continues in active demand, with many more borrowers than lenders, and at Bank, accommodation is limited—the extent to which the Banks are allowed to discount, by law, having been reached. The complaints are still numerous of the small returns from the country, where the indebtedness is large, and which causes the existing state of affairs in money here. The remedy for this, it is believed, will be found in a future, on a cash basis, or much shorter time than is at present allowed—the system adopted in other cities, and which is found to work to the advantage of buyer and seller. Merchants and farmers who visit Northern and Eastern cities, and make their purchases there, do not expect long credits, or any indulgence on the part of their creditors, and our merchants have just cause for complaint, that they should be expected to sell as cheap, or cheaper, than the merchants of other cities, and still are not put upon the same footing as to terms. Our merchants have labored under this disadvantage for a long time, and it can be readily placed at 8 1/2 cent, while we continue short time loans on fancy cottages at 10 1/2 cent. The Banks are quite liberally supplying their customers, and we hear very little complaint in circles of this character.

The New York Money market continues to cheapen—6 1/2 cent being the rate at which the bulk of the business is done. The rate of discount has been raised from 10 to 12 per cent, and the rate of exchange on New York is at 14 1/2 cent.

Land Warrants are now quoted at New York as follows:

60's " "	84 "	90 "
80's " "	68 "	73 "
